

# CAD Automation for Autodesk Inventor

## ACADEMY-CAAI-101

ACADEMY-CAAI-101 is designed for participants who want to get an introduction to the CAD Automation for Autodesk Inventor product. They will do hands-on work with Tacton CPQ Product Modeling and Tacton CAD Mapping Editor, as well as gain a basic understanding of Tacton's solution for Autodesk Inventor. The goal of the course is for participants to be able to translate their own product knowledge, data and processes into a Tacton configuration model. They will also be able to set up and maintain a CAD project on their own.

### TYPICAL STUDENT

Typically design engineers, product managers, or product experts, who will be responsible for setting up and maintaining the CAD Automation solution.

### PREREQUISITES

- Basic knowledge of Tacton CPQ Product Modeling as well as basic knowledge of Autodesk Inventor. The following trainings are recommended: **Tacton CPQ Basic** and **Tacton Product Modeling**.
- The participants should bring their own laptop with Autodesk Inventor and CAD Mapping Editor for Autodesk Inventor installed.
- No previous knowledge of CAD automation is required.
