

TCstudio Modeling Methodology

ACADEMY-MODELING-103

Academy-Modeling-103 is a course that will give the participants a glimpse into the way Tacton consultants work to create maintainable models with excellent performance. The participants will learn the tools and how to structure a model in order to make a successful implementation of Tacton models. The course teaches a feature based way of modeling that has been proven very successful. The goal of the course is for the participants to make informed and well-founded design decisions.

The course consists of a mix of both theoretical parts as well as practical hands-on exercises.

TYPICAL STUDENT

Engineers, product managers or product experts who are responsible for setting up and maintaining Tacton configuration models and data

PREREQUISITES

ACADEMY-MODELING-101

Students should bring their own laptop with TCstudio as well as TCexcel Add-in installed
