

Modeling Rundown Training Academy-Modeling-102

Academy-Modeling-102 is designed for participants who want to get both a theoretical introduction as well as practical hands-on experience of the Tacton rundown methodology and the TCexcel Add-in product.

The Tacton rundown methodology is considered the ideal way to structure product configuration data to achieve minimal maintenance and optimal performance.

The goal of the course is for participants to be able to translate their own product knowledge, data and processes into the structure of a typical “rundown” to be able to setup and maintain Tacton Configurator model under ideal circumstances.
