

Modeling Advanced Training Academy-Modeling-201

Academy-Modeling-201 is designed for participants who want both a theoretical introduction and practical hands-on experience to the advanced and powerful concepts and tools available in TCstudio.

The goal of the course is for participants to substantially improve their personal skill set. They will learn how to improve the architecture of their existing and future Tacton configuration models; to improve performance; reduce implementation time; simplify maintenance; and ensure long-term top performance of their Tacton projects.
